

**ENVIRONMENT POLICY
STATEMENT**

 **01536 266840**

 **info@waste4generation.co.uk**

 **waste4generation-ltd**

Waste4Generation Ltd is committed to the protection of the Environment and will conduct its operations in an environmentally responsible manner. Environmental management is to form a cornerstone of our operations and will constantly be adapted and diversified moving forwards. The R&D site's operation is overseen by our Environmental Management System which is to be annually reviewed. This EMS will be upgraded to ISO 14001 Certification in accordance with the site's licence requirements. Regarding environmental management, we aim to conduct ourselves in the ways set out below:

Protection of the Biosphere

We will minimise and strive to eliminate the release of any pollutant that may cause environmental damage

Sustainable Resources

We will make use of renewable natural resources. We will conserve non-renewable natural resources through efficient and careful planning.

Energy Usage

We will make every effort to use environmentally safe and sustainable energy sources. The site itself generates its own sustainable electricity and heat. We will invest in improved energy efficiency and conservation in our operations.

Risk Reduction

We will minimise the environmental and health & safety risks to our employees, to contractors and to the public.

Damage Compensation

We will take responsibility for any harm we cause to the environment and make every effort to restore the environment and compensate those adversely affected.

Disclosure

We will disclose to our employees and to the public, incidents in relation to our operations that cause environmental harm or safety hazards.

Environmental Management

We will address environmental management in an organised approach and include within our management systems.

Assessment and Audit

We will carry out environmental assessments and audits annually to actively monitor to effectiveness of our performance in achieving this policy statement.

Disposal

We will ensure that all waste materials are disposed of in accordance with environmental legislation and records kept and forwarded to the relevant environmental office where applicable.
